## THE SEAMEN'S INSTITUTE.

The local branch of the Seamen's Friend Society is steadily growing, and will soon be a realized fact of no adjunct of a sea-port and cannot be dispensed with on any other basis than sheer indifference. Astoria ought to cherish an institution such as this; no coast city knows better the urgent need of a social hall for the sailor, who, in default of this falls an easy prey to people and cirhim. It is argued that the sailor is primarily disposed to the evil elements of a city, but we deny this in the name of the manly calling and aver there are hundreds of them who would make constant and familiar use of the privileges extended by the society once they are placed before them. Example is a tremendous force for good in every walk in life and those who from choice shall frequent the cleaner and more wholesome atmosphere may serve the good end for others of their own ship and calling. Not every seaman is a drunken fool; there are thousands of them family men and life and would be glad to conserve their status of respectability if only the correct agencies were placed at their disposal in strange ports. ## THE MILLIONAIRE SUICIDE.

A young Cincinati millionaire has suicided. The dispatches are very meagre as to the cause, but the indi- check is apparently exorbitant. cations are that he was in good health, possessed of several millions of money, held a well-poised place in the society of his city and was a pillar of one boomers, is called to the case of the of its churches, the head of a splendid business, and in the very summer of his life. That it did not serve young Proctor in that direction is made manifest in his self-wrought death.

The Thaw trial is likely to be responsible for a new and radical departure in the current system of public defense by delinquents of all sorts throughout the country. The brainstorm theory is immensely convenient and undeniably respectable, and properly worked, may be made popular and successful. Even now there are hundreds of anxious victims of the law devising the necessary presentation of the theory in their particular cases when they shall be summoned back into court for trial; and we look to hear the idea sprung on Judge Anderson in the police court almost any day. He has a line of perverts who, in the aggregate, can present more phases of the peculiar doctrine than any other clientelle we know of, and what of extraordinary application is not made in his court, will undoubtedly be made in the "little court around the corner," where Justice Goodman will lend judicial contemplation to the constructive and obstructive plea. It is not thought that very many alleged criminals will try to force it on Judge McBride, of the circuit bench, who, while he may give it dignified consmall importance. I procured them and they acted up to the representations made for them and before I had used a whole box I found great relief. In a short time the action of the kidney secretions was corrected and the pain and aching was removed from my back. I cheerfully recommend Doan's Kidney Pills to anfone troubled with backache or kidney complaint."

Chicks on Plowed Ground.

It is well known, though less well known than it should be, that chicks thrive wonderfully on plowed ground. and one well known poultryman plows up alternate strips of his chick range so that the young stock can have their choice of either fresh ground or grass ground. He insists that the youngsters spend most of their time on the plowed ground.

Mennen's Toilet Powder made its fame by its supertority. It holds its fame by this same inimitable quality. There is nothing like Mennen's. There could not be because no one clacknows the secret of the Mennen powder and the processes of manufacture. Therefore no "imitation" has been more than a surface imitation, superficial, spurious and fraudulent.

Under the provisions of the new pure food and drugs law every box of Mennen's bears the serial number designated by the government, a guarantee of purity and of protection to every purchaser and user of Mennen's Toutet Powder.
